PROJECTS

Crud Operation [🔗](#)

Developed full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to implement robust CRUD operations. Leveraged MongoDB for data management, Express.js for API development, React.js for interactive UIs, and Node.js for efficient server-side logic. Ensured seamless data flow and user experience across applications.<https://github.com/siva8825/crud-.git> [🔗](#)

Ecommerce Website [🔗](#)

This landing page is designed to showcase the latest trends and collections in men's clothing. It's built using HTML, Tailwind CSS framework, and JavaScript, ensuring a visually appealing and fully responsive design. <https://github.com/siva8825/ecommerce-project.git> [🔗](#)

Todo List [🔗](#)

A simple and responsive To-Do List application developed using React Js, CSS, Bootstrap, and JavaScript. This application allows users to manage their tasks efficiently. <https://github.com/siva8825/todo-list.git> [🔗](#)

Weather App

A Simple Weather application built with React Js, CSS, JavaScript. It fetches weather data from an API and displays it to the user. <https://github.com/siva8825/weather-app.git> 

Intuit Mailchimp

Clone Website

Developed a responsive and interactive web-page using React js, CSS, Javascript, Bootstrap, Node Js, Express Js, MongoDB featuring dynamic content, smooth navigation for real time updates.
