Projects

Weather app : A Simple Weather application built with HTML, CSS, JavaScript. It fetches weather data from an API and displays it to the user.

Intuit Mailchimp: Developed a responsive and interactive web-page using React js,CSS,Javascript,Bootstrap,featuring dynamic content,smooth navigation, and API integration for real-time updates.

ToDo-List : A simple and responsive To-Do List application developed using HTML, CSS, Bootstrap, and JavaScript. This application allows users to manage their tasks efficiently.

Crud Opertion :Developed full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to implement robust CRUD operations. Leveraged MongoDB for data management, Express.js for API development, React.js for interactive UIs, and Node.js for efficient server-side logic. Ensured seamless data flow and user experience across applications.

E-Commerce : This landing page is designed to showcase the latest trends and collections in men's clothing. It's built using HTML, Tailwind CSS framework, and JavaScript, ensuring a visually appealing and fully responsive design.
